

PARTEEK SINGH

Senior Full Stack & AI Engineer

Chandigarh, India | +91 7696672522 | parteeksingh_dev@outlook.com | linkedin.com/in/parteek-singh-chd/

PROFESSIONAL SUMMARY

Senior Full Stack & AI Engineer with 8+ years of experience building scalable web, mobile, and AI-enabled enterprise applications. Skilled in React.js, Next.js, Node.js, Python, GraphQL, PostgreSQL, and AWS, with hands-on experience integrating LLMs, RAG workflows, and AI development tools into production applications. Experienced in delivering end-to-end features, improving application performance, and collaborating with cross-functional teams, including leading small engineering teams across healthcare, fintech, insurance, and e-commerce domains.

TECHNICAL SKILLS

- **AI / LLM & Frameworks:** OpenAI, Claude Code, LangChain, RAG Pipelines, LLM fine tuning
- **Agentic AI & Tooling:** Agentic AI Workflows, MCP Servers, Agent Loops, GitHub Copilot, Cursor
- **Frontend Architecture:** React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), Redux Toolkit, Tailwind CSS, Material UI
- **Backend & Databases:** Node.js, Python, Express.js, GraphQL, Fast API, REST APIs, Python, PostgreSQL, MongoDB, Prisma ORM, Sequelize, SQL, kafka
- **Cloud, DevOps & Automation:** AWS (Lambda, API Gateway, S3, CloudFront, Cognito), Serverless, Kubernetes, Docker, Terraform, CI/CD (GitHub Actions, Jenkins)
- **Testing Frameworks:** Jest, Cypress, React Testing Library

PROFESSIONAL EXPERIENCE

Technical Lead | EMIDS (Oxbridge Health) (08/2025 – Present)

- **Worked with scalable AI-enabled solutions** using Python, LangChain, LiteLLM, and RAG.
- **Accelerated team development velocity** by guiding engineers on efficient AI tool usage, optimizing credit consumption while maximising output quality.
- **Fine tuned an open source model** using client healthcare data to accurately predict patient appointment attendance, directly enhancing business operational efficiency.
- **Engineered frontend and backend systems** using React and GraphQL, integrating AWS Serverless ecosystems (Lambda, API Gateway, S3, CloudFront) with PostgreSQL to support high-throughput applications.

Lead Technical Consultant | Perficient (New york life insurance) (01/2025 – 08/2025)

- **Led a core engineering team** in designing a React microfrontend architecture for an enterprise insurance platform, improving modularity and allowing concurrent deployment streams.
- **Streamlined release management cycles** by modernizing Jenkins-based CI/CD pipelines, reducing deployment failure rates by 15%.

Senior Software Engineer II | Concentrix (HDFC Bank) (07/2022 – 01/2025)

- **Spearheaded frontend development** for a high-traffic banking platform, successfully improving overall application rendering performance load time.

- **Built robust Node.js microservices** and seamless MongoDB integrations to handle secure, high-volume transactional data.
- **Optimized backend performance** by introducing Redis-based caching for frequently accessed data, reducing database load by **40%** and significantly improving application response times.

Senior Software Engineer | **Webmob Software Solutions (CLST)** (08/2021 – 07/2022)

- **Developed a real-time cryptocurrency trading application** leveraging React and WebSockets to handle instantaneous, low-latency live market updates.
- **Integrated Web3 technologies**, including MetaMask and WalletConnect, providing users with secure, decentralized authentication and transaction signing.
- **Created Python scripts** for automation and automated data ingestion pipelines.
- **Worked closely with database administrators** to identify bottlenecks using query execution plans, optimized complex joins and indexing strategies, and improved API latency by **30%**.

Senior Systems Engineer | **Infosys** (07/2018 – 08/2021)

- **Built enterprise-grade React applications** for prominent global clients, including Pfizer and Google, ensuring absolute compliance with security and accessibility standards.
- **Authored Python automation utilities** that significantly enhanced engineering productivity across the wider internal delivery unit.
- **Collaborated cross-functionally** with UX design and product management teams to rapidly prototype and deliver highly responsive web solutions.

EDUCATION

Bachelor of Engineering (Information Technology) | UIET, Panjab University (2014–2018)

CERTIFICATIONS

- Certified JavaScript Developer – Infosys
- Advanced React.js – Udemy
- AI Engineer core track - Udemy
